

CARE FOR KIDS & Young Adults

Early & **P**eriodic **S**creening, **D**iagnosis & **T**reatment

Earlier this month we sent you a letter explaining the *EPSDT Care For Kids Program*, but we have not been able to speak with you.

Enclosed is a form to fill out and return to us. This will help us get to know you better so we can give you information you may need to keep your family healthy.

EPSDT Care For Kids helps children, teens, and young adults with Medicaid, ages birth to 20 years old. We help to detect, prevent, and treat health problems early. Regular medical and dental check-ups, vision and hearing screenings, lead testing & immunizations all help keep your child well. *Care For Kids* comes with Iowa Medicaid and there is no cost to you.

If you don't have a doctor or dentist, we can help you find one and make appointments. We can also let you know about other programs like WIC, food banks, energy assistance, and more.

Lee County Health Department Provides EPSDT Care for Kids in:
Davis, Des Moines, Jefferson, Lee, and Van Buren Counties

LEE Maternal Health
CHD Child Health
Public Health

You may call us at 319-372-5225 or 800-458-6672 at any time.

We look forward to speaking with you!
