

Unit 7 Assessment

① Write the fact family.

$$\underline{\quad} + \underline{\quad} = \underline{\quad}$$

$$\underline{\quad} + \underline{\quad} = \underline{\quad}$$

$$\underline{\quad} - \underline{\quad} = \underline{\quad}$$

$$\underline{\quad} - \underline{\quad} = \underline{\quad}$$

② Fill in the missing numbers.

$$3 + \underline{\quad} = 8$$

$$\underline{\quad} + 3 = 8$$

$$8 - \underline{\quad} = 3$$

$$8 - 3 = \underline{\quad}$$

③ Imagine you are playing *Salute!*

The sum is 16.

Your partner's card is 8.

What is your card? _____

Explain how you know.

Unit 7 Assessment (continued)

- ④ Solve.

$$11 - 9 = \underline{\quad}$$

Unit

Was it easier to count up or count back to solve?
Make an argument to explain why.

- ⑤ Name at least one defining attribute of a triangle.

- ⑥ Name at least one defining attribute of a square.

- ⑦ Add.

$$\begin{array}{r} 5 \\ + 5 \\ \hline \end{array}$$

$$\begin{array}{r} 3 \\ + 4 \\ \hline \end{array}$$

$$\begin{array}{r} 2 \\ + 7 \\ \hline \end{array}$$

Unit

$$\square + 4 = 5$$

$$\square = 5 + 4$$

$$5 = 3 + \square$$

$$\begin{array}{r} 0 \\ + 7 \\ \hline \end{array}$$

$$\begin{array}{r} 5 \\ + 3 \\ \hline \end{array}$$

$$\begin{array}{r} 3 \\ + 3 \\ \hline \end{array}$$

Unit 7 Assessment (continued)

8 Subtract.

$$\begin{array}{r} 5 \\ - 5 \\ \hline \end{array}$$

$$\begin{array}{r} 8 \\ - 4 \\ \hline \end{array}$$

$$\begin{array}{r} 7 \\ - 1 \\ \hline \end{array}$$

$$\begin{array}{r} 10 \\ - 7 \\ \hline \end{array}$$

$$\begin{array}{r} 6 \\ - 3 \\ \hline \end{array}$$

Unit

$$\square - 4 = 5$$

$$\square = 10 - 4$$

$$4 = 7 - \square$$

9 What time is it?

10 Draw the hands to show 3:00.

11 Find the rule. Fill in the missing numbers.

in	in	out
↓	4	14
Rule	50	60
↓	22	32
out	55	

12 Write a number sentence to check one of your answers.

Is your number sentence true? Was your answer right?

Unit 7 Challenge

Magic Square Challenge

A magic square is a square grid filled with numbers.

The numbers are all different.

But the numbers in every row, column, and diagonal all have the same sum!

In these magic squares, the numbers all add up to 15.

Use the numbers 1 through 9 to finish these magic squares. Remember each number can only be used once in each magic square.

①

6		
	5	
2		4

②

	3	8
		1
		6
